

the Piper Focus

Top 5 Piper Focus Flyers of 2019

The past 12 months gave us some great issues. Here are the best of the year, as voted on by an esteemed panel of judges (basically, just me).

#5

Full Collaboration, Imaginative design
Volume 56 showed us how well our specialists will work with you through every step of the process to design the perfect product for your operation. From concept, to reality.

#2

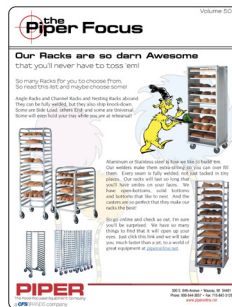

Spooky Quality
Halloween gave us a fright with volume 65. We learned that keeping the hoarde of zombies at bay is easy with our Cook and Hold ovens. The exclusive Roast-Air™ Cooking Process gives greater product yield to make sure you have enough to feed any onslaught of customers.

#4

LaCrosse, by Piper
In September, Volume 64 reminded everybody of our vast array of underbar equipment. Piper quality runs strong through all of our equipment, from sinks and cabinets, to glass racks and ice chests. And it's all made right here in the USA.

#1

Rhyme Time
Volume 50 rolled around with so many racks to choose from, we made a list so you could choose some! Our racks bring smiles on your faces and fill your storage spaces.

#3

The Bladey Bunch
Volume 63 took us on a stroll down memory lane with Mike, Carol, and Alice, and showed us all of the blade options the Anliker Slicers have to offer. They are the perfect tool for feeding any bunch!

Dr. Suess was the inspiration for this week's flyer. It was such a hit, that sales went even higher!

We hope you've enjoyed this year of the Piper Focus and look forward to more in the future. Have a fantastic New Year!

What will 2020 bring?
