

the Piper Focus

Easily access utilities through removable panels

Order the new Utility Chase Option for Elite

Piper's Utility Chase option for Elite Serving Counters is an excellent choice for interconnected lineups with complex utility needs. Simply lift off the front panels to gain quick and easy access to load centers, drain lines, network/data cables, and more. No tools are necessary, there is no need to alter the floor during a remodel, and valuable understorage space in the unit is not lost. The panels cover the chase for a virtually seamless look, without changing the footprint of the unit.* Plus, you have the ability to easily update the finish in the future. It's the perfect solution for a complex, custom cafeteria/buffet line installation.

Easily Run Multiple Utilities

- Cord and plug
- Water and drain lines
- Network/Data cables
- Remote refrigeration lines

Lift-off panels are easily removed without tools for easy access to the utility chase. Tray slides must be mounted on fixed brackets.

*when tray slides are included
